

PowerBoss®
The Power of Clean

Collector 34
Walk-Behind Sweeper

The Collector 34 walk-behind sweeper has excellent sweeping performance on all types of floors including carpet and hard floors. This sweeper is extremely economical, easy to operate and gives you dust-free sweeping at 36,600 actual square feet per hour. The high efficiency dust filter system provides for a cleaner environment as debris is removed. The large 18.3 cubic foot panel filter system captures fine dust and drops it directly into the hopper. The dust vacuum suction can be shut off when sweeping wet areas so that the filter won't be damaged or clogged. A heavy-duty ABS cover opens wide for easy access to interior components. The cover has an automatic shut-off for safety.

High efficiency dust filter system: The large, 18.3 cu ft panel filter system captures fine dust allowing for dust-free sweeping.

Easy to empty hopper: The large capacity hopper recovers a large variety of debris and can be filled to 100% capacity due to the overthrow sweeping method. It can be easily emptied using the two ergonomic handy hopper inserts.

Easy access for service: The cover simply lifts up for easy access to engine and batteries for service and maintenance.

Specifications	
Batteries	(2) 6 volt 275 AH Batteries
Area Performance	36,600 actual sq ft/h (3400 sq m/hr)
Sweeping width	34" (86.4 cm)
Drive	Variable forward drive
Safety	Automatic stop activated by simply releasing the lever. Safety switch on cover .
Main Broom	Wide main broom with bristles arranged in 1" rows. Sweeping level/path can be adjusted without the use of additional tools.
Dust filter	18.3 cubic feet, pleated one piece filter
Dirt hopper	1.66 cubic feet
Length with side brush	54" (137.6 cm)
Width with side brush	34" (86.4 cm)
Height	40" (101.6 cm)
Weight with batteries	269 LBS (122 kg)

BLUE PowerBoss is proud to be BLUE!
What does it mean to be BLUE?

- **Water Conservation** – Aqua-Stop saves water usage by 50%, water is released through a pump system providing greater control of water usage than gravity systems
- **Clean Air** - High-performance filter system dramatically reduces the release of dust and debris back into the air, dust vacuum ensures that dust is put directly into the hopper, bristle pattern on main broom increases dust control
- **Lower Emissions** – All gas and LP engines meet Tier 2 specifications, catalyst mufflers, battery operated available, diesel operated available, bio-diesel fuel can be used in Kubota engine
- **Safer Work Environment** – Orange machines are highly visible to others in the workplace, simple controls reduce operator error, one-button scrub, horn, fire in hopper indicator, effective braking system, "belly bar" prevents operator from being pinned behind machine when in reverse, parabolic squeegee picks up all water leaving the scrub path virtually dry for traffic, seat equipped with safety shut-off switch, also available: overhead guard, back-up alarm, warning beacon
- **Clean Energy** – Battery operated available, bio-diesel fuel can be used in Kubota engines
- **Lower Chemical Reliance** – Aqua-Stop saves chemical usage by 50%, pump system for water and chemical release allows for better control of chemical usage, chemical metering system is available as an option and regulates chemical usage to the correct dose

Features listed are general for PowerBoss equipment; each machine has different features and therefore, may or may not fill all of the features listed above.
